-  **Made in Denmark**
-  **Developed with children**
-  **Low-maintenance**
-  **Sustainable materials**
-  **Fully certified**

### The best tube slides

Our tube slides come in a wide range of colours, sizes and shapes. They can easily be added to an existing play system, and will undoubtedly enhance the play value at any playground.

Every time the children go down the slide, they strengthen their balance and motor skills while also developing an understanding of cause and effect. When they sit at the top and push themselves forward, they are propelled down the tube – and this creates a subconscious connection between action and consequence, which helps to support their logical sense.

We are able to supply fully customised tube slides, and you are always welcome to contact our dealers if you want a product altered in any way, or if you are interested in a specially designed tube slide.

### Specifications

**Article number**

TB6707

**Recommended ages**

From 3 years

**Product dimensions (LxWxH)**

358 x 189 x 253 cm

**Max. fall height**

170 cm
