

# DATA SHEET MULTIFUNCTIONAL TRAINER

Item No: 551010401 | Text for invitation to tender

## MATERIALS | SCOPE OF SUPPLY

Fitness equipment, nearly pre-mounted;  
final installation on location

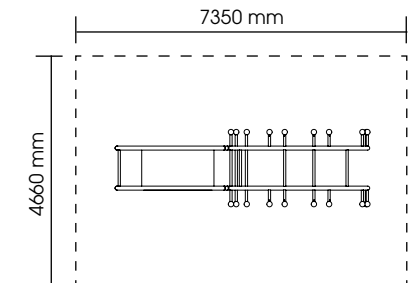

|                    |                                                                             |
|--------------------|-----------------------------------------------------------------------------|
| tubular frame:     | stainless steel, V2A                                                        |
| tube end caps:     | balls made of EPDM,<br>20 pieces                                            |
| roll:              | stainless steel, V2A, with<br>layer made of EPDM<br>rubber granule, 1 piece |
| foundation:        | steel, coated                                                               |
| Instruction sheet: | stainless steel, aludibond<br>1 piece                                       |

## TECHNICAL INFORMATION

Dimensions:

|                 |                                |
|-----------------|--------------------------------|
| Main dimension: | 3820 x 1160 mm                 |
| Height:         | 2000 mm                        |
| Weight:         | 250 kg                         |
| capacity:       | acc. to normative requirements |

|                                  |                          |
|----------------------------------|--------------------------|
| Max. fall height:                | 2000 mm                  |
| Safety surfacing area:           | 34,25 m <sup>2</sup>     |
| Required safety slabs:           | 37,50 m <sup>2</sup>     |
| Required lawn grating:           | 40,00 m <sup>2</sup>     |
| Recommended<br>surface material: | synth. impact protection |

## INSTALLATION

Foundations: 1

Installation at concrete surfaces possible  
(special edition)

Installation according to our detailed mounting  
instructions, see [www.stilum.com](http://www.stilum.com)
