**Ready!**

- Vegetable-based
- It never dries
- Easy to clean
- Gluten free
- Malleable
- 3D and flat shapes
- Great plasticity
- Colors can be mixed

## Explore by sculpting!

### Vegetable-base ingredients

JOVI PLASTILINA is a vegetable based modeling clay to play in fun colors, malleable and suitable for kids from 2 years old; it does not contain gluten and never dries.

Unlike mineral based modeling clays, JOVI PLASTILINA allows creations with a higher volume (+34,5%).

### You will be able to play nonstop because it never dries!

It molds and unfolds easily and it is great to create volume figures; its versatility also allows the use of molds and other techniques as painting with PLASTILINA in a paper.

### Free of the major allergens and gluten free

Safe for the children and with no toxicity risk.
