### Product description

The Gallows with Balance Rope presents a robust challenge, focussing on children's balance. Equipped with two ropes, both above and below, this gallows provides kids with a dynamic and active play experience.

The ropes shift as children walk or balance on them, actively engaging their abdominal and back muscles, and creating a fun yet challenging encounter. As kids navigate through the ropes, they are motivated to focus, adapt, and overcome the swinging motions. This equipment helps to strengthen the child's body and hone their motor skills, coordination, and sharpen their senses through the different materials.
