

DESCRIPTION

Timeless, the most interesting and the most popular collection from the NOVUM playgrounds offer. The 1906-A kit is intended for children 5 years of age and older. A climbing wall or a climbing net are obstacles that are difficult to overcome, require efficiency and good coordination, however, going down a high slide will reward the children with the hardships of the crossing. Playing on the playground is an opportunity to test your abilities and limitations. When climbing, climbing or descending, children practice coordination, balance and strength, and have a lot of fun at the same time.
