Zone	A	B	C
Max height of fall [m]	0,70	0,00	-
Area [m ²]	28,5	0,0	-
Perimeter of safety zone [m]	19,0		

MATERIALS

The device is located 47 cm below the ground level. The rotary part is based on a bearing mechanism and on rubber rings placed around the circumference of the carousel. Carousel platform made of corrugated metal. The structure is made of square steel profiles, channel sections and angles with dimensions from 20x20 to 50x40 and sheet metal 1-8 mm. Handrails made of round steel tube 42.4 and 26.9 mm. Seat made of high-pressure polyethylene (HDPE). Steel elements protected against corrosion by galvanizing and powder coating. All fasteners resistant to weather conditions and UV radiation.
