

DESCRIPTION

A small house made of metal and HDPE polyethylene plate, will become a decoration of any playground. A perfect hideout while playing hide and seek, a place to rest after a long and tiring game, or a secret meeting point for your best friends, a colorful house will be perfect in each of these roles. It will also be a great shelter from rain and sun. Thanks to the metal anchors, the poles do not have direct contact with the ground, which extends the life of the device. The structure of the house is made of metal sections, embedded directly in the ground. Filling protections, roof sheathing and other modules: High-pressure polyethylene (HDPE). Steel elements protected against corrosion by galvanizing and powder coating. Foundation of sets 60 cm below the ground level. Foundation according to the assembly instructions

INFORMATION

Number of users	8
Age range	0 - 14
Device dimensions [m]	2.86 x 1.66 x 2.12
Compliance with the norm	EN 1176
Spare parts	Available

SAFETY SURFACE

Zone	Max height of fall [m]	Area [m ²]	Perimeter of safety zone [m]
