Series Description:

The Terra collection was created out of a desire to design an inspiring space that combines a connection with nature, education, and unrestricted play. The idea for this unique series was born from our passion for promoting values that contribute to the holistic development of children.

In the Terra collection, we have integrated the principles of Montessori and Reggio pedagogy, creating products that inspire children to explore the world and learn through hands-on experiences. This allows children to develop their skills in an atmosphere of respect, independence, and curiosity.

Terra supports and encourages independent action, fostering a sense of responsibility and self-reliance.
