Bolt-designations • Bolzen-Bezeichnungen • Bolt-betegnelser

CS	Countersunk bolt • Senkschraube • Undersænket bolt
BH	Button head bolt • Rundkopfschraube • Buttonhead bolt
HX	Hex bolt • Sechskantschraube • Maskinbolt
CA	Carriage bolt • Flachrundschrave • Bræddebolt
NT	Nut • Mutter • Møtrik
LN	Locknut • Stopmutter • Låsemøtrik
TN	Topnut • Hutmutter • Topmøtrik
WS	Washer • Unterlegscheibe • Spændeskive
BS-S	Bushing with thread in side • Buchse mit Gewinde in Seite • Bøsning med gevind i side
BS-B	Bushing with thread in bottom • Buchse mit Gewinde in Unterseite • Bøsning med gevind i bund
TS	Tapping screw • Blechschrave • Pladeskrue

Icons • Symbole • Ikoner

-  Tighten loosely with your fingers
Mit den Fingern lose anziehen
Stram løst med fingrene
-  Tighten with a suitable tool
Mit passendem Werkzeug anziehen
Spænd fast med passende værktøj
-  Drill hole with drill
Loch mit Bohrmaschine bohren
Bor hul med boremaskine
-  Turn fixed with hammer
Mit Hammer festmachen
Slå fast med hammer
-  Must be vertically leveled
Muss vertikal nivelliert werden
Skal være i lodret vater
-  Must be horizontally leveled
Muss horizontal nivelliert werden
Skal være i vandret vater
-  Fill the hole with soil
Loch mit Erde füllen
Fyld hul op med jord
-  Cast hole with concrete
Beton ins Loch gießen
Støb hul med beton
-  Picture shown from opposite side
Abbildung von der anderen Seite dargestellt
Billedet er vist fra modsat side
-  Important information – see note
Wichtige Informationen – siehe Hinweis
Vigtig information – se note

1A Post in ground • Eingraben der Pfosten • Stolpe nedgravet

1B Post in concrete • Einbetonieren der Pfosten • Stolpe støbt

1C Post on floor • Pfosten auf Boden • Stolpe på gulv

Installation acc. to floor type.
Fixing not included.

Installation nach Bodentyp.
Befestigungen nicht enthalten.

Monteres iht. gulvtype.
Befæstelse medfølger ikke.

1D Control of perpendicular • Kontrolle der Senkrecht • Kontrol af vinkelret

Important! Poles for towers must be completely perpendicular.
Ensured by controlling internal cross-measure.

Wichtig! Pfosten für Türme muss vollständig senkrecht sein.
Sichergestellt durch interne Quer Maß zu steuern.

Vigtigt! Stolpe til tårne skal være helt vinkelrette.
Sikres ved kontrol af indvendigt krydsmål.

2A Floor frame • Bodenrahmen • Gulvramme

2B Floor plate • Bodenplatte • Gulvplade

2C Floors against each other • Böden gegeneinander • Gulve mod hinanden

3 Beam • Balken • Overligger

4 Crossbar • Balken • Bom

5A Side plate • Seitenplatte • Sideplade

Relevant for multiple plate variants • Relevant für mehrere Plattenvarianten • Relevant for flere pladevarianter

5B Lookout barrel • Ausgucktonne • Udsigtstønde

5C Tic Tac Toe • Tic Tac Toe • Kryds & bolle

5D Slide start plate • Rutsche Startplatte • Rutsjebane startplade

5E Gangway start plate • Steg Startplatte • Opløbsbro startplade

5F Tube start plate • Röhrenstartplatte • Tunnelstartplatte

5G

Ship's stern • Schiffsbug • Skibsstævn

1 Only the ship's stern at 45 degrees • Nur für 45 graden Schiffsbug • Kun for skibsstævn på 45 grader

2 Repeat on the other side • Wiederholen auf der anderen Seite • Gentag på den anden side

6A Post top • Pfostentop • Stolpetop

6B Leaf top • Blatttop • Bladtop

6C Leaf roof • Blattdach • Bladtag

6D Rope top • Seil top • Tovtop

6E Binoculars top • Fernglas top • Kikkertop

6F Dome top • Kuppel top • Kuppel top

Adjust the lock nub to tighten the rope • Stellen Sie die Sicherungsmutter um das Seil zu spannen • Juster møtrikken, for at stramme tovet op

7A

Roof • Dach • Tag

Avoid cap if gable plate has to be attached to roof • Kappe nicht aufsetzen, wenn Giebelseite mit der Dach zusammengebaut wird • Undlad hætte, hvis gavplade skal monteres på tag

7B

Gable plate • Giebelseite • Gavplade

- 1** Detach top plate from roof • Platte abmontieren • Afmonter toplade fra tag
2 Push up to avoid gap • Platte ganz nach oben drücken um Risse zu vermeiden • Skub helt op for at undgå sprække
3 Reuse bolts from picture 1 • Die gleichen Bolzen wie im Bild 1 benutzen • Genbrug bolte fra billede 1

8A

Table on floor • Tisch auf Boden • Bord på gulv

8B

Table in ground • Tisch ins Erdreich • Bord i jord

9 Bench • Bank • Bænk

10 Stool • Hocker • Taburet

11A Rope on post • Seil am Pfosten • Tov på stolpe

11B Rope on crossbar • Seil am Balken • Tov på overligger

12 Lianas • Lianen • Lianer

13A

Suspension bridge • Hängebrücke • Hængebro

13B

Railing on susp. bridge • Geländer an Hängebrücke • Gelænder på hængebro

 Remove transport fixture • Transportbefestigung entfernen • Fjern transportsikring

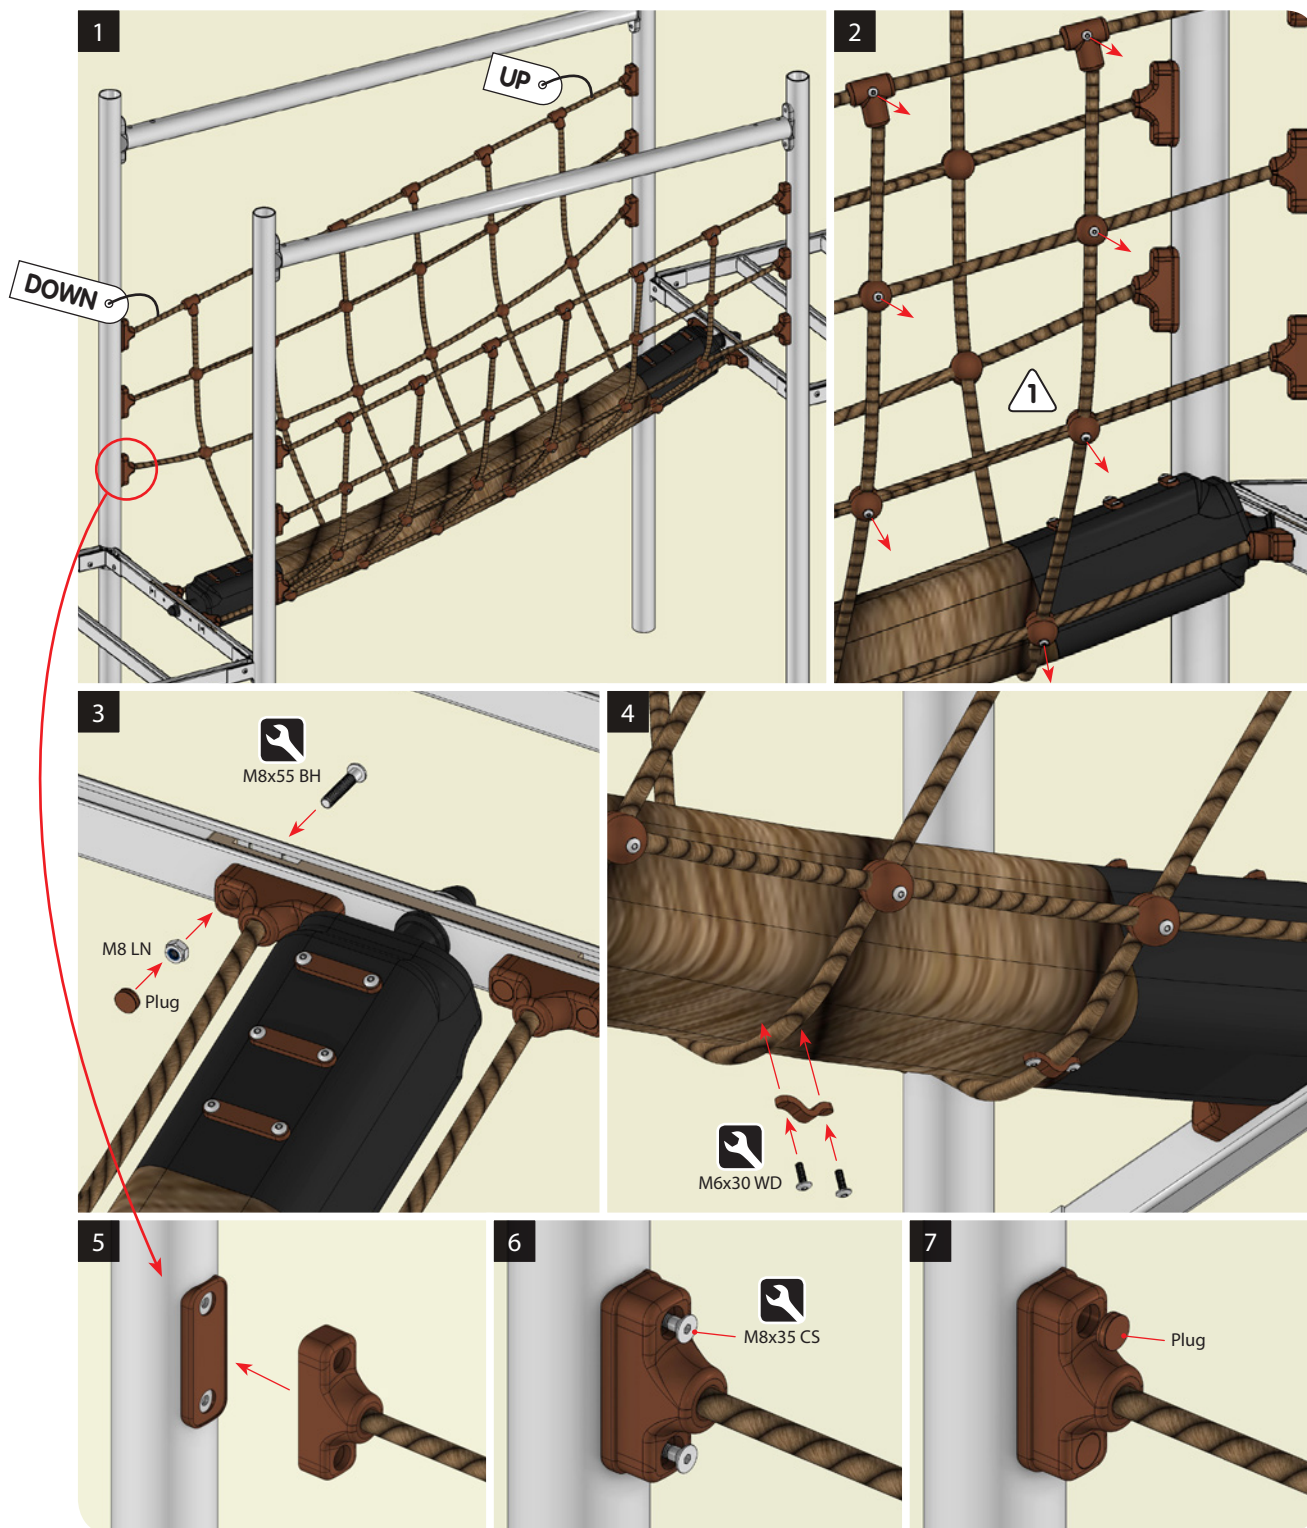

14A

Jungle bridge • Dschungelbrücke • Junglebro

1 Remove transport fixture • Transportbefestigung entfernen • Fjern transportsikring

2 This side up • Diese Seite nach oben • Denne side opad

14B Railing on Jungle bridge • Geländer an Dschungelbrücke • Gelænder på junglebro

Screws must point away from bridge • Schrauben müssen von der Brücke weg zeigen • Skruer skal vende væk fra broen

15A Horizontal rope tunnel • Horizontaler Netztunnel • Vandret netsluse

15B

Slanting rope tunnel • Schräger Netztunnel • Skrå netsluse

16 Gangway • Steg • Opløbsbro

17A Climbing wall • Kletterwand • Klatrevæg

17B Horizontal ladder • Horizontale Bogenleiter • Vandret opgangsstige

17C

Climbing wall • Kletterwand • Klatrevæg

When the ground anchor is placed, removed the soil around the ropes, so they are tight.

Wenn der Bodenbefestigung angeordnet ist, entfernt den Erde rund um die Seile, so dass sie angezogen sind.

Når jordankeret placeres, fjernes jorden omkring tovene, så de står stramt.

18A Rope ladder top attachment (2 forks)
 • Strickleiter top befestigung (2 Gabeln) • Rebstige topbefestigelse (2 gafler)

18B Rope ladder top attachment (3 forks)
 • Strickleiter top befestigung (3 Gabeln) • Rebstige top befestigelse (3 gafler)

18N Rope ladder ground anchor PE • Strickleiter Bodenbefestigung PE
 • Rebstige jordanker PE

18O Rope ladder ground anchor PE • Strickleiter boden befestigung PE
 • Rebstige jordanker PE

**18P Rope ladder ground anchor Metal • Strickleiter Bodenbefestigung Metall
• Rebstige jordanker Metall**

When the ground anchor is placed, removed the soil around the ropes, so they are tight.

Wenn der Bodenbefestigung angeordnet ist, entfernt den Erde rund um die Seile, so dass sie angezogen sind.

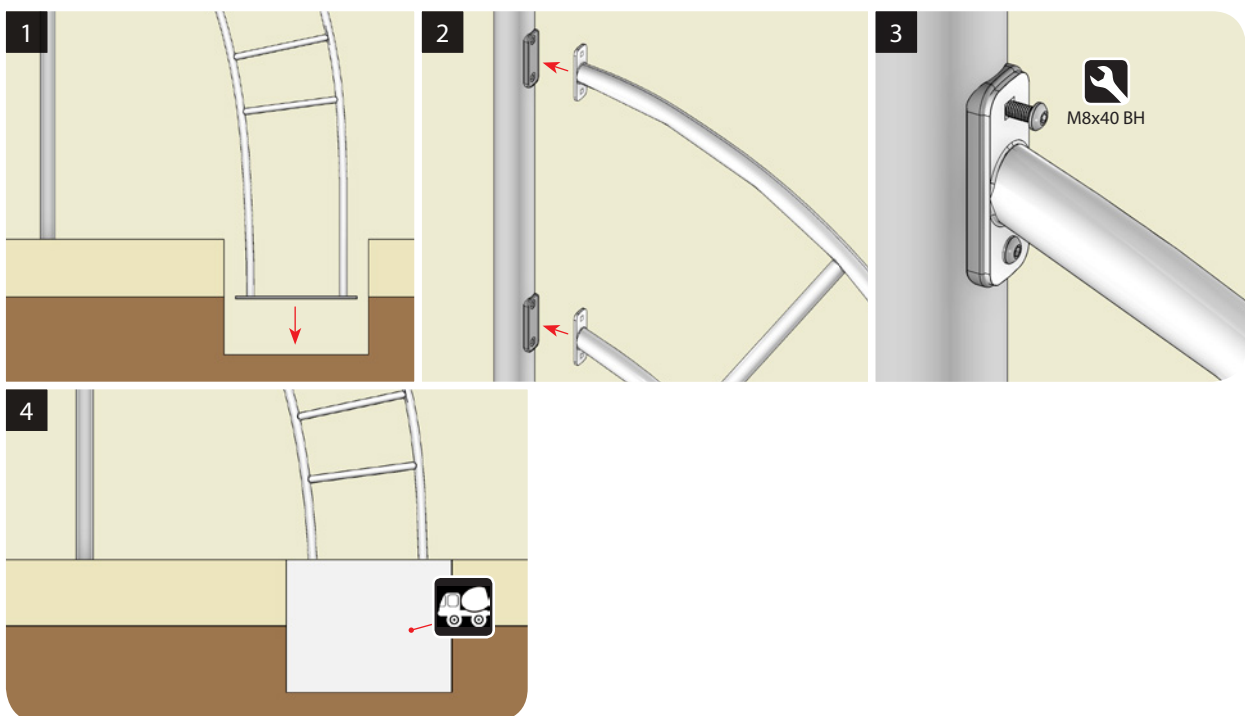

Når jordankeret placeres, fjernes jorden omkring tovene, så de står stramt.

18Q Rope ladder ground anchor Metal • Strickleiter boden befestigung Metall
• Rebstige jordanker Metall

When the ground anchor is placed, removed the soil around the ropes, so they are tight.

Wenn der Bodenbefestigung angeordnet ist, entfernt dan den Erde rund um die Seile, so dass sie angezogen sind.

Når jordankeret placeres, fjernes jorden omkring tovene, så de står stramt.

19A Horizontal ladder • Horizontale Bogenleiter • Vandret opgangsstige

19B Vertical ladder • Senkrechter Bogenleiter • Lodret opgangsstige

1 Remove transport fixture • Transportbefestigung entfernen • Fjern transportbefæstning

20

Fireman's poles • Rutschstangen • Glidestænger

21A Slide • Rutsche • Rutsjebane

Adjust height to avoid tensions • Höhe einstellen um Spannungen zu verhindern • Juster højde for at undgå vrid

21B Wide slide • Breite Rutsche • Bred rutsjebane

22 Tube slide • Röhrenrutsche • Tunnelrutsjebane

For installation of the tube slide see separate assembly instructions and tunnel description.

Für Montage der Röhrenrutsche entnehmen Sie bitte die separate Montageanleitung und Tunnelbeschreibung.

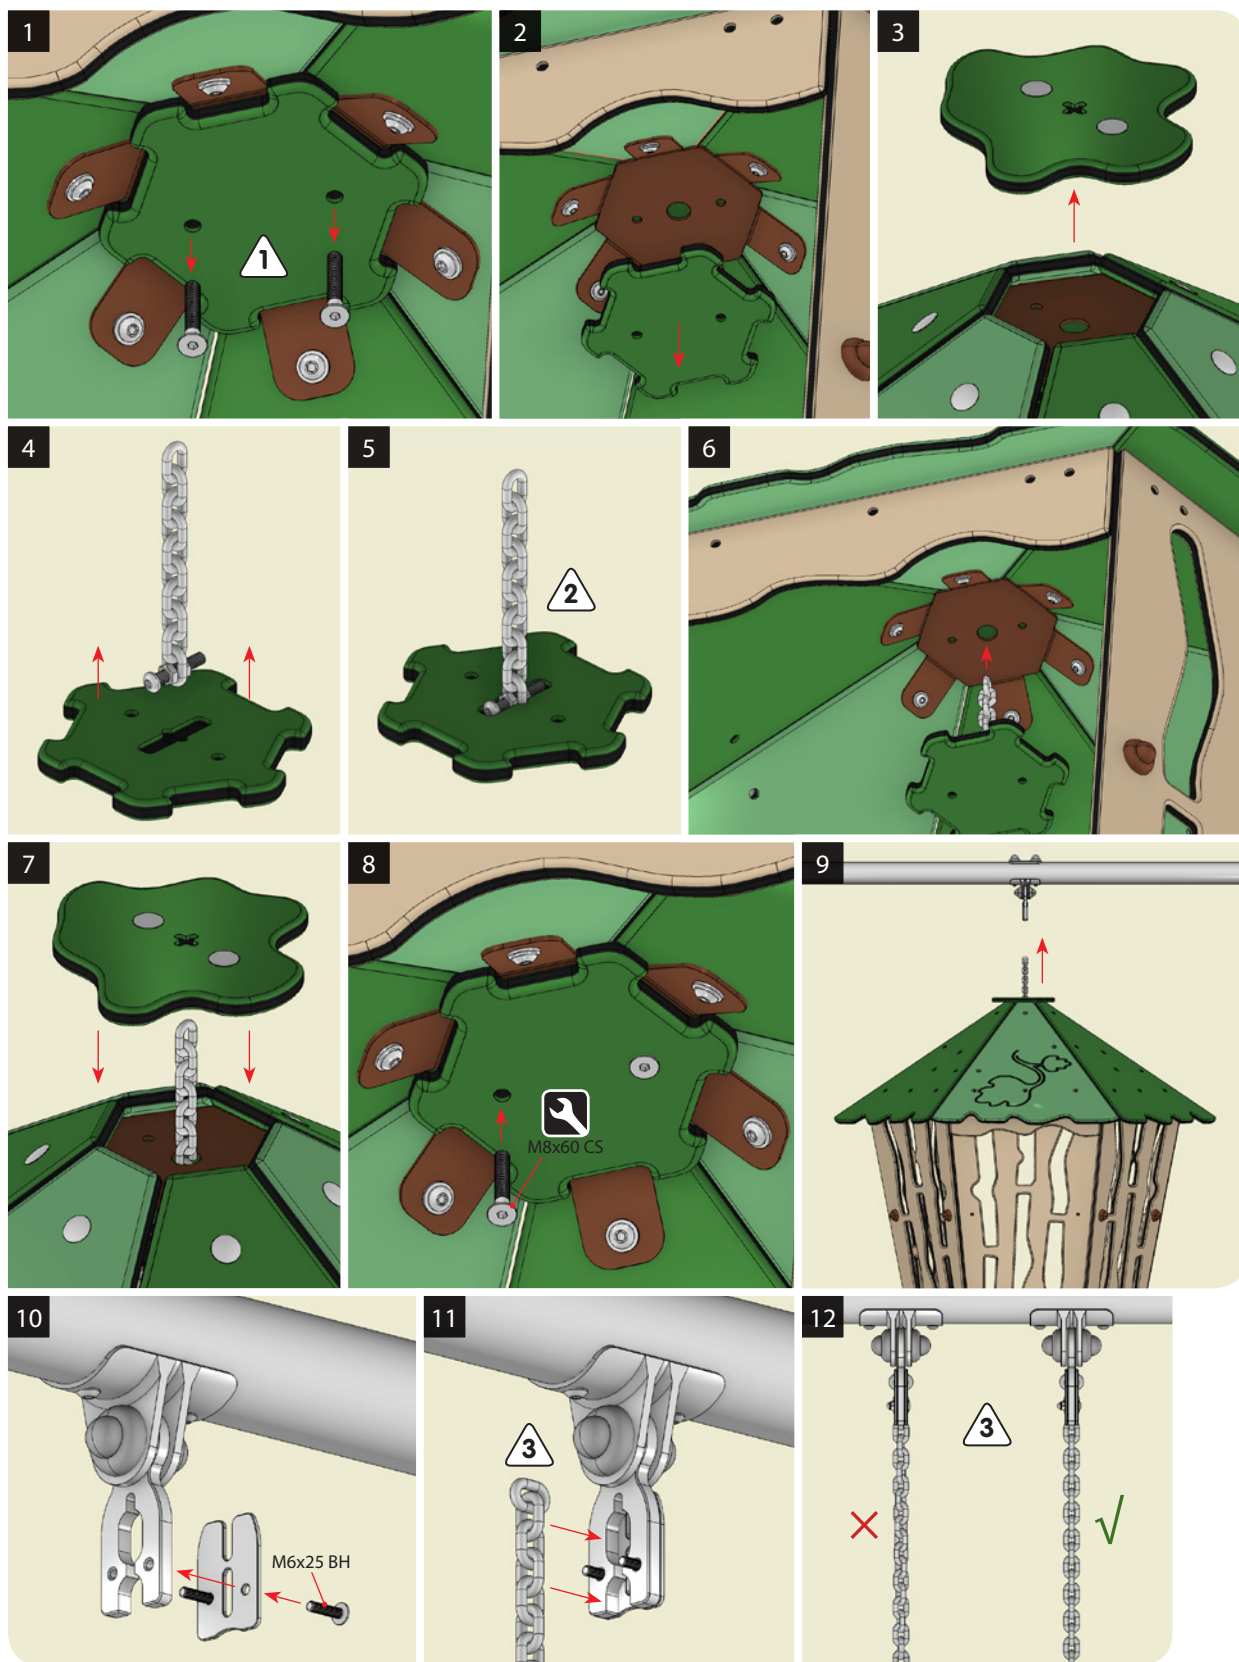

For montage af tunnelrutsjebanen henvises til særskilt montagevejledning og tunnelbeskrivelse.

23 Bird's nest • Vogelnest • Fuglerede

Make sure not to twist chain • Beachten Sie dass die Kette sich nicht verdreht • Undgå at kæden snoes

24

Jungle hut • Dschungelhütte • Junglehytte

1 Remove transport fixture • Transportbefestigung entfernen • Fjern transportsikring

2 Bolt must stay in hole • Bolt muss in Loch bleiben • Bolten skal forblive i hullet

3 Make sure not to twist chain • Beachten Sie dass die Kette sich nicht verdreht • Undgå at kæden snoes

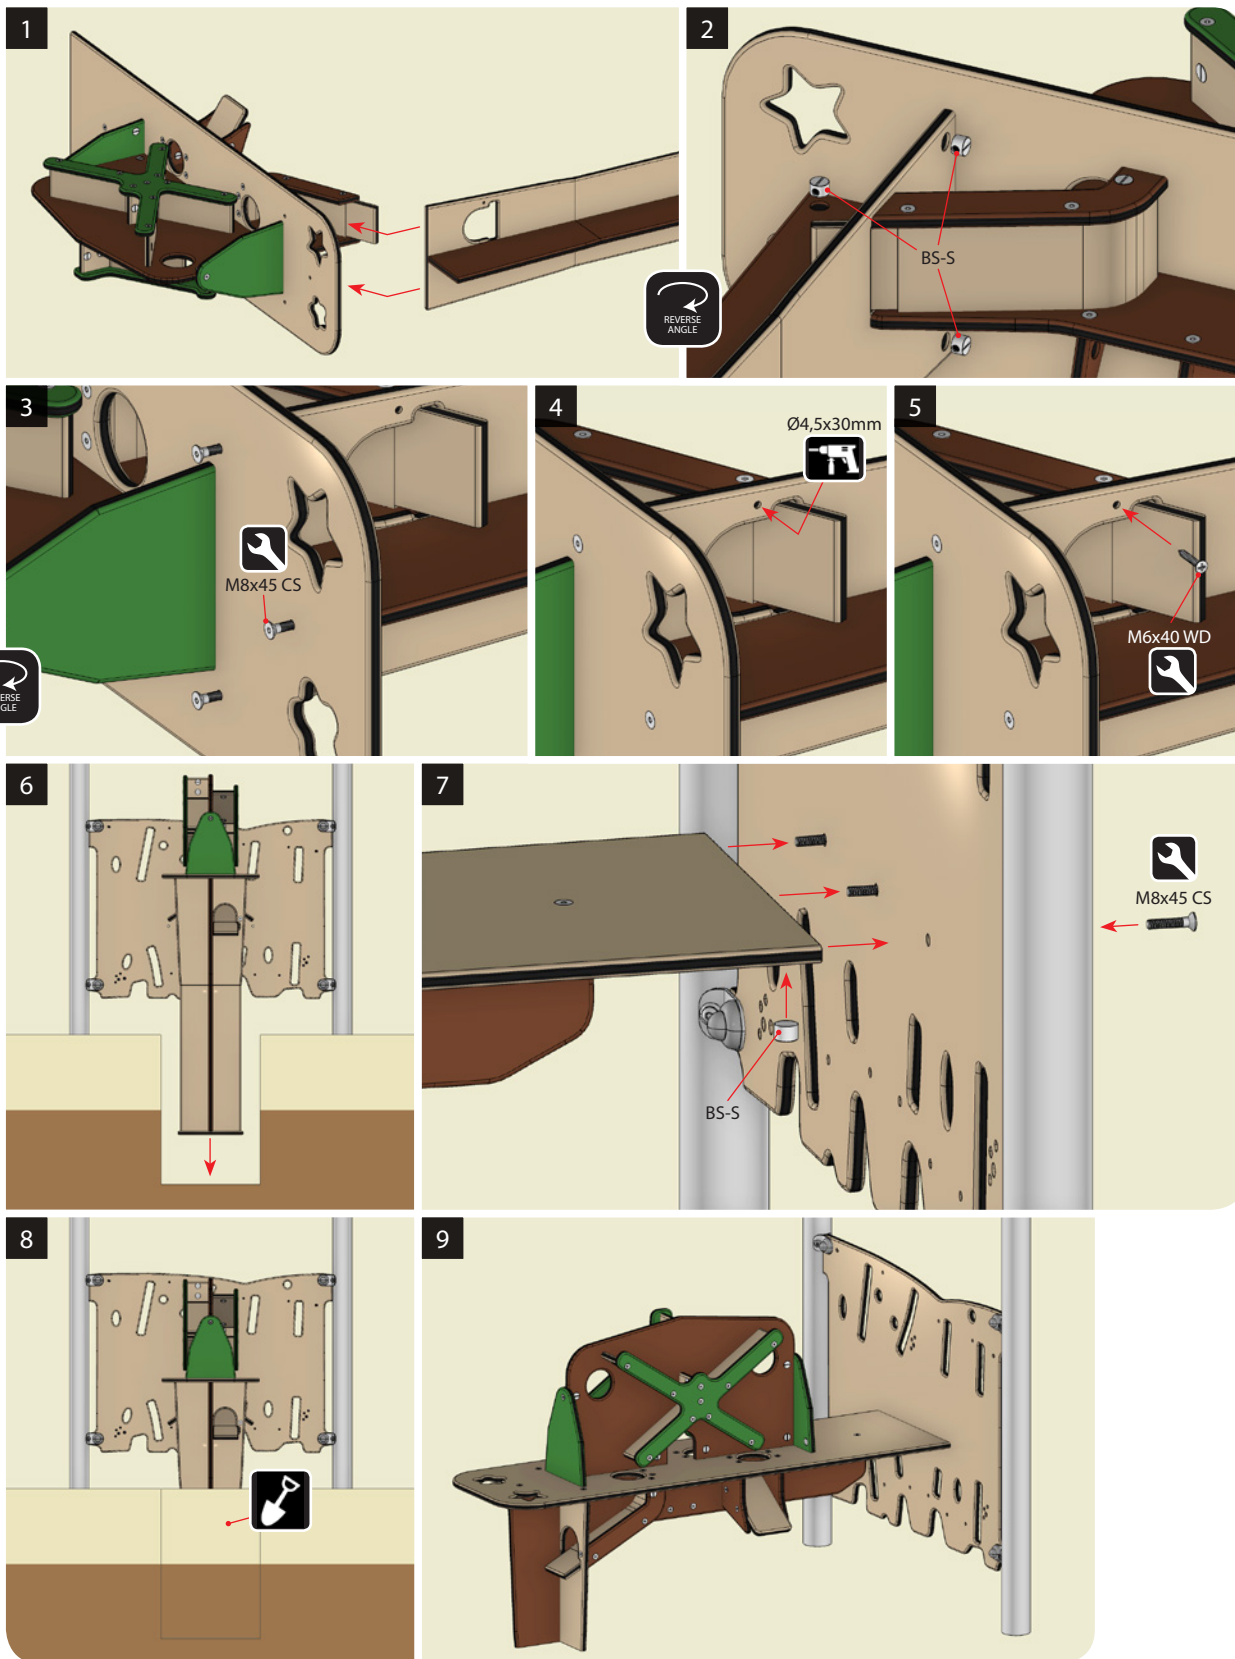

Installation principles • Montageprinzipien • Montageprincipper

25 Splash table • Matschtisch • Sjaskebord

26 Sandmaschine • Sandmaschine • Sandmaskine

27 Mast • Mast • Mast

28 Ship rudder • Schiffsruder • Skibsrør

29 Compass • Kompass • Kompas
