Fitness stairs I-model

Sisu Fitness , 081873M

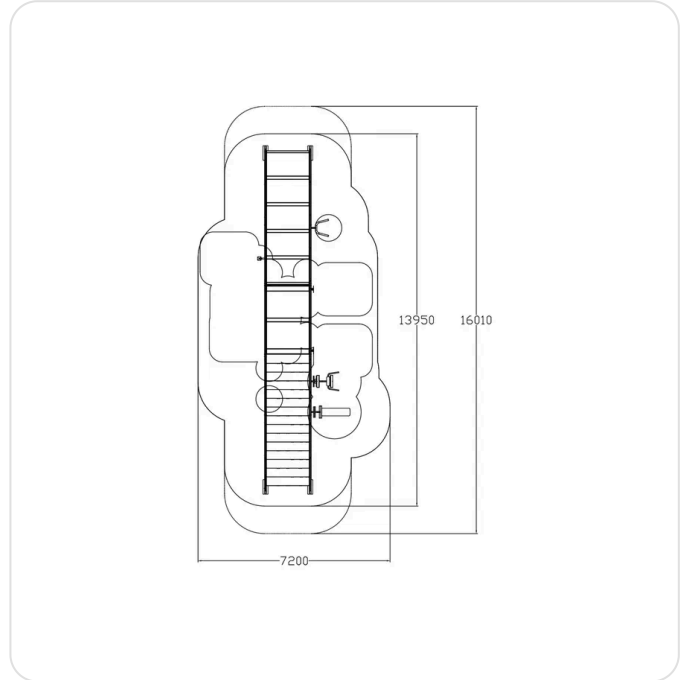

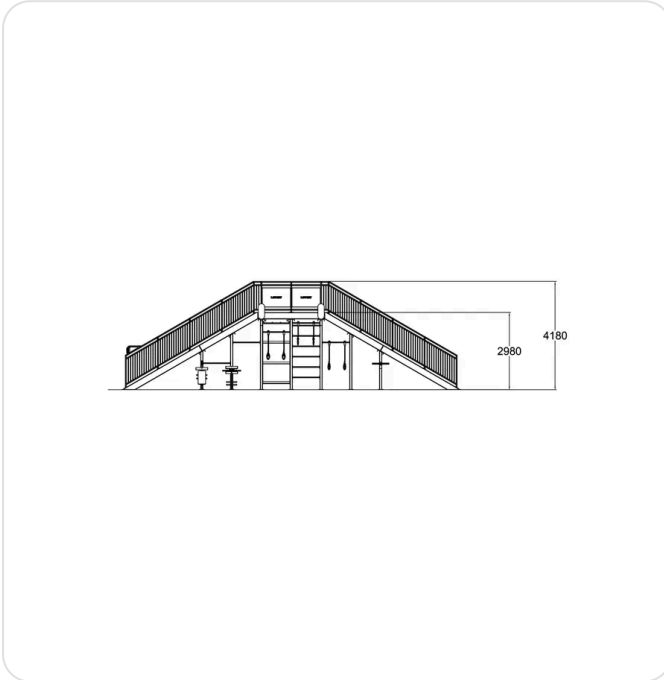

Inspired by Finland's well-known outdoor stair workout culture, these I-model fitness stairs combine stair running, functional training and social outdoor activity into one active exercise environment. A stair section and a running ramp create versatile ascent opportunities for speed, endurance and strength training. Six pull-up bars and three sets of gymnastic rings at varying heights, dip bars, an abdominal bench, a back extension bench, a gymnastic wall and medicine ball throw targets offer diverse training options for users of different ages and fitness levels. Functional details such as stair step markings and a repetition counter add variety to the training experience and help users track performance across different exercise levels. LappCoat-finished steel frames, hot-dip galvanized stairs and durable HPL elements ensure excellent weather resistance and a long service life outdoors.

Basic information

Installation Time	56
Safety Standard	EN 16630:2015

Technical information

Largest Part, mm	3430	Width, mm	3460
Netto Weight, Total Shipping Weight, kg	3309.024	Area of Movement Length, mm	13950
Foundation Type	Surface mounting	Area of Movement Width, mm	7200
Heaviest part, kg	66	Length, mm	13060
Area of Movement	81	Max Free Fall Height, SPORT, mm	2980
Height, mm	4180
