Fitness stairs Y-model left

Sisu Fitness , 081876M

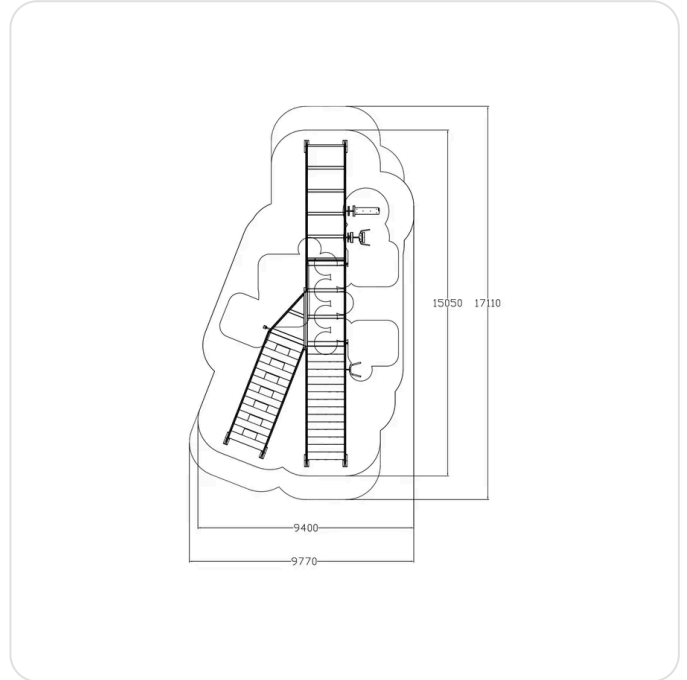

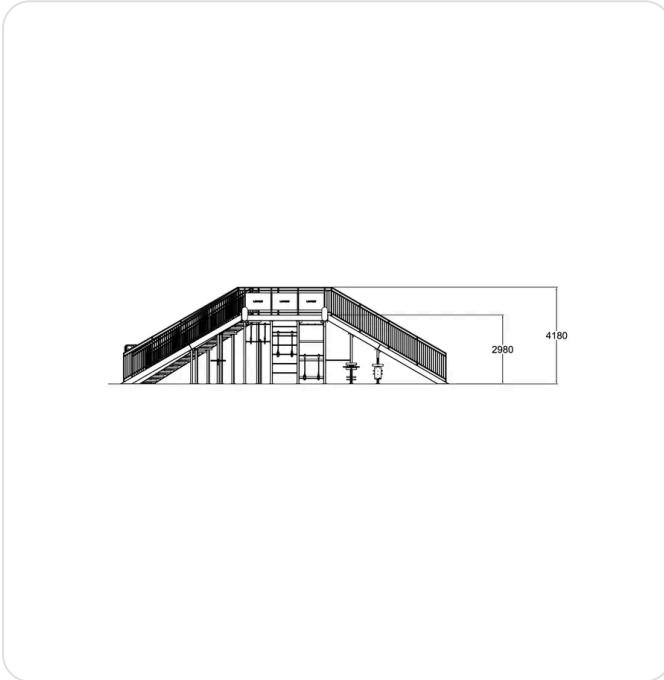

These multifunctional fitness stairs bring movement into everyday urban life and are inspired by Finland's unique outdoor stair training culture. Two stair sections and a running ramp create versatile ascent routes for speed, endurance and strength training, even in environments without natural elevation differences. More than 20 functional training elements enable a wide variety of exercises and movement patterns for users of different fitness levels. Five pull-up bars and three sets of gymnastic rings at varying heights, dip bars, an abdominal bench, a back extension bench, stall bars, a vertical bar, a gymnastic wall and targets for medicine ball throws support both individual workouts and group training. LappCoat-finished steel frames, hot-dip galvanized stairs and durable HPL elements ensure long-lasting outdoor performance. A mirrored version of this product is also available under product number 081875M.

Basic information

Installation Time	85
Safety Standard	EN 16630:2015

Technical information

Largest Part, mm	3430	Width, mm	6790
Netto Weight, Total Shipping Weight, kg	5053.263	Area of Movement Length, mm	15050
Foundation Type	Surface mounting	Area of Movement Width, mm	9400
Heaviest part, kg	65	Length, mm	14210
Area of Movement	106.6	Max Free Fall Height, SPORT, mm	2980
Height, mm	4180
