

SVALLLET BICYCLE STAND Frame lockable

You can lock your bicycle from it's frame to Svallet bicycle stand. The design is simply and smooth so it fits most environments. One Svallet takes two bicycles, one on each side, and recommended free space between stands is 80-100 cm leaving 40-50 cm space for each bicycle. Svallet has two installation versions; deep mounting with wet concrete and surface mounting with fixing plate to be bolted on concrete or asphalt.
