# Good advice and tips

Ein paar gute Ratschläge und Tipps • Gode råd og vejledning

## GB

- Take all components from the pallet and place them on the ground.
- Compare with components list – is everything there?
- Be at all times precise when measuring.
- Unpack one component at a time and assemble it.
- Usage of a water-level will increase precision.
- Fall protection is the very last thing to be installed – along with the producer's label.
- In case of loose soil, it is recommended to mount in concrete when mounting the individual modules.

## D

- Alle Bauteile von der Palette nehmen und auf den Boden legen.
- Anhand der Bauteileliste überprüfen, ob alle Teile vorhanden sind.
- Beim Abmessen generell präzise arbeiten.
- Ein Bauteil nach dem anderen auspacken und montieren.
- Die Benutzung einer Wasserwaage erleichtert die Montage.
- Die Fallschutzunterlage wird erst ganz zum Schluss verlegt – dann, wenn das Produzentenetikett angebracht wird.
- Falls der Boden sehr locker ist wird bei montierung der einzelnen Modulen empfohlen in Beton zu montieren.

## DK

- Tag komponenterne af pallen og læg dem på jorden.
- Check efter komponentlisten om alle er med.
- Vær omhyggelig med afstande generelt.
- Pak én komponent ud af gangen og gør denne færdig.
- Vær omhyggelig med brug af vatterpas.
- Faldunderlag etableres til allersidst sammen med påsætning af mærkning med producent.
- Såfremt underlaget er løst, anbefales det, at der støbes i beton i forbindelse med opstilling af de enkelte redskaber.
