

AUTO SPRING ROCKER

Auto Spring Rocker fuels both imagination and movement with its car-themed design. Children (aged 1+) can steer, bounce and create stories while improving motor coordination and rhythm. This combination of physical and imaginative play supports balance, core strength and social interaction. The sturdy structure is made from HPL panels with a strong steel spring base, ensuring safety and long-lasting outdoor performance. Compact and inviting, Auto is easy to integrate into playgrounds of all sizes. A lively addition to themed or inclusive playground equipment layouts, an enduring favourite in schools, kindergartens and public parks. Fall height for the rocker is 600 mm.
