

SARA SEESAW

Sara Seesaw delivers dynamic movement and group interaction for children aged 3+. Designed to hold more than two users, it encourages social play, cooperation and balance development as children rock, coordinate and communicate together. Its playful rhythm supports both physical challenge and connection, making it an ideal feature for parks, schoolyards and community playgrounds. The HPL seating offers comfort and durability, while the steel and wood frame provide a safe, stable structure built for high-use environments. Sara adds energy and teamwork to sustainable playground equipment layouts designed for older children with fall height of 840 mm.

User age	3+
Number of users	2
Product length, mm	3620
Product width, mm	210
Product height, mm	770
Impact area, m ²	11.5
Falling space, m ²	14.5
Height required, mm	2500
Max. free fall height, mm	840
