

JIN HIGH PLAY TOWER

Jin High Play Tower reaches impressive heights, creating a bold centrepiece for outdoor playgrounds. Children aged 2+ can climb, slide and explore across two slides, elevated platforms and challenging climbing features, building strength, balance and coordination. Designed for high-energy play, Jin supports both independent exploration and shared adventure, encouraging resilience and confidence through physical activity. Constructed from PEFC-certified Nordic pine and durable HPL panels, Jin combines natural materials with robust engineering for long-term outdoor performance. The net and rope elements are steel enforced. Its scale and design reflect the spirit of Nordic design playgrounds, where imagination and movement meet sustainable construction. Perfect for public parks and schoolyards, Jin inspires adventure, creativity and active play at every level. The fall height is 1970 mm.

User age	2+
Number of users	30
Product length, mm	5140
Product width, mm	5610
Product height, mm	6100
Impact area, m ²	44
Falling space, m ²	45
Height required, mm	6600
Max. free fall height, mm	1970
Safety info	EN 1176-1:2017; 3
Installation time (for 1), H	128
Foundation options	deep_mounting surface_mounting
