Lenne Play Tower invites children (aged 1+) to move freely in all directions, combining climbing, sliding and roleplay in a compact, well-balanced structure. With multiple access points and colourful design features, it supports a variety of play styles, encouraging both active movement and social interaction. Designed to build motor coordination, balance and strength, Lenne suits children of different abilities exploring through physical and imaginative play. Its open layout promotes inclusive use while allowing for easy adult supervision. Constructed from PEFC-certified Nordic pine and durable HPL panels, Lenne is built for everyday use in kindergartens, residential parks and public playgrounds. The net and rope elements are steel enforced. A vibrant addition to outdoor activity spaces focused on creativity, connection and full-body development. The fall height of Lenne is 1470 mm.

User age	1+
Number of users	7
Product length, mm	3110
Product width, mm	2810
Product height, mm	3670
Impact area, m ²	23
Falling space, m ²	25.5
Height required, mm	4170
Max. free fall height, mm	1470
