ENNI TODDLER PLAY TOWER

Enni Toddler Play Tower brings together early climbing, imaginative play and compact design for the youngest explorers (aged 1+). Children can climb, navigate different levels and engage in roleplay, all while building strength, confidence and coordination through movement. With a PEFC-certified pine frame and HPL panels, Enni offers a sturdy and safe space for toddler play in public parks, kindergartens and early learning centres. Its low fall height 580 mm and inclusive layout support independent and group play while allowing full visibility for adult supervision. Enni is a thoughtful choice for outdoor playgrounds focused on early development, physical literacy and joyful discovery.

User age	1+
