Lilli Play Tower offers multi-directional play in a compact and approachable design. Children (aged 1+) can climb, slide and engage in imaginative games, building strength, coordination and confidence as they move, explore and play together. Its size makes it ideal for smaller playgrounds, kindergartens and residential areas, while its open structure supports visibility, access and inclusive play. Lilli encourages physical activity and social interaction in a space that welcomes all abilities. Made from PEFC-certified Nordic pine and HPL panels, Lilli provides long-term durability and safety for daily use. The net and rope elements are steel enforced and the fall height is 1470 mm.

User age	1+
Number of users	7
Product length, mm	3590
Product width, mm	2490
Product height, mm	3940
Impact area, m ²	24
Falling space, m ²	26.5
Height required, mm	4440
Max. free fall height, mm	1470
Safety info	EN 1176-1:2017; 3
Installation time (for 1), H	11
