## Luukas Toddler Play Tower

Prime , F24104M

If you're developing a kindergarten yard, you can not go wrong with Luukas! Luukas Toddler Play Tower focuses on the core developmental skills of children - motorical, creative, physical, emotional and cognitive. The kiosk panel invites children to roleplay shop, the slide is not too easy to access but instead requires the children to reach it via the wobbly net bridge or via the rope ladder. The play panels in the middle are great for more calm and passive play. A trapeze on the beam is a guaranteed hit activity. The product is manufactured from PEFC-certified Nordic pine. Colorful panels are HPL.
