

SIIRI MOTOR SKILLS TRACK

Siiri Motor Skills Track invites children (1+) to explore movement through climbing, crawling and balancing. Its modular layout allows for endless play variations, adapting to different playground designs and supporting full-body development through active play. Designed for skill-based progression, Siiri encourages physical confidence, coordination and problem-solving in a fun and inclusive setting. Constructed from PEFC-certified Nordic pine and steel components, this playground equipment ensures durability, safety and long-term outdoor performance with fall height of 1970 mm. Ideal for kindergartens, parks and recreational spaces, Siiri brings variety and purposeful movement to sustainable playground equipment plans focused on wellbeing and early learning.

User age	1+
Number of users	24
Product length, mm	9670
