

EINO CLIMBING FRAME

Eino Climbing Frame adds layers of movement and challenge with ropes, ladders and platforms that inspire imaginative exploration. Designed to activate core strength, balance and agility, Eino encourages children aged 3+ to move with purpose while engaging in collaborative, inclusive play. Its open layout supports different play styles with fall height of 2000 mm. Children can climb, navigate, and solve problems. This makes it a great choice for schoolyards, public parks, and community playgrounds. The frame is built from PEFC-certified Nordic pine and fitted with durable, weather-resistant steel components for long-lasting outdoor performance. Part of our sustainably responsible playground equipment offering, Eino fits naturally into activity-focused layouts that promote wellbeing through movement. A versatile piece that sparks adventure and supports physical development in playgrounds for all abilities.

User age	3+
