**ANGELICA CLIMBING FRAME**

Angelica Climbing Frame combines elegant design with playful challenge through its circular form and accessible climbing features. Children aged 3+ can climb, crawl and explore from multiple directions, encouraging imaginative play, social connection and motor skill development. Constructed from durable HPL panels and strong steel components, Angelica is built for long-lasting performance in busy outdoor playgrounds. Its open structure supports inclusive play and group interaction, making it ideal for schoolyards, parks and public spaces. The fall height of Angelica is 1450 mm.
