Saga Climbing Frame is a bold and dynamic feature for outdoor playgrounds, designed to challenge, excite and inspire. Its wild shapes and varied climbing elements promote strength, balance, agility and creative movement with fall height of 2000 mm. Children aged 3+ can explore ropes, nets and climbing walls that encourage both solo adventure and cooperative play. Built from PEFC-certified Nordic pine and steel-reinforced rope, Saga delivers long-lasting performance in active outdoor environments. Its sturdy construction ensures safety while supporting energetic, full-body play. Ideal for schoolyards, public parks and movement-focused spaces, Saga adds variety, height and imaginative flow to sustainable playground equipment designs. A powerful invitation for children to climb, explore and grow through movement.
