

# KAJ CLIMBING FRAME

Kaj Climbing Frame is a modern classic that encourages strength, coordination and confidence through movement. With multiple climbing routes and entry points, it invites children (3+) of different abilities to scale, stretch and explore at their own pace. Compact yet engaging, Kaj fits effortlessly into schoolyards, parks and other outdoor activity spaces. Its inclusive design supports both independent play and shared challenges, fostering social connection and physical development. Built from PEFC-certified Nordic pine, Kaj is part of our sustainably responsible playground equipment range. The durable frame is designed to perform in all seasons while reflecting the beauty of natural materials with fall height of 2330 mm. The nets are steel-reinforced.

User age	3+
Number of users	5
Product length, mm	1610
Product width, mm	1610
Product height, mm	2320
Impact area, m <sup>2</sup>	20.5
Falling space, m <sup>2</sup>	20.5
Height required, mm	3830
Max. free fall height, mm	2320
Safety info	EN 1176-1:2017
