KALLE CLIMBING FRAME

Kalle Climbing Frame encourage children aged 4+ to climb higher, move boldly and explore their surroundings with curiosity. Designed to inspire adventure, its varied climbing features support upper body strength, balance and problem-solving through active, imaginative play. Constructed from steel enforced rope, PEFC-certified Nordic pine and steel elements, Kalle is built for durability and designed for children of all abilities. Its inclusive layout encourages teamwork, perseverance and shared discovery. Adaptable to a wide range of outdoor playground designs, Kalle adds energy and height to schoolyards and public parks. A bold and engaging choice for communities focused on movement, resilience and connection through play with fall height of 1970 mm.
