KLARA CLIMBING FRAME

Klara Climbing Frame proves that small spaces can offer big play opportunities. Tailored for compact playgrounds, its thoughtful design provides rich climbing challenges that build motor skills, spatial awareness and confidence. Ideal for younger children (4+) discovering movement, Klara encourages climbing, stretching and problem-solving through active, inclusive play. Its approachable size with fall height of 2060 mm supports both solo exploration and social interaction in a secure environment. Built for durability and suitable for a variety of outdoor activity areas, Klara fits seamlessly into schoolyards, parks and urban playground equipment layouts. A space-efficient solution that is proof that small can still mean mighty. The frame of the product is PEFC-certified pine wood and the nets are steel enforced.

User age	4+
