# HEINÄ SWING FRAME

Heinä Swing Frame brings variety and flexibility to playground design. Capable of supporting multiple seat types, it adapts to different user (aged 4+) needs while encouraging balance, coordination and social play with fall height of 1400 mm. Its robust frame combines durable wood with a reinforced steel beam, creating a safe and long-lasting foundation for swinging activity. The design fits seamlessly into both schoolyards and recreational parks, offering planners a versatile option for sustainable playground equipment. Heinä reflects the simple, functional spirit of Nordic design playgrounds, where durability and inclusivity meet playful movement.
