Anni Sandbox invites children aged 1+ to dig, build and explore through touch, creativity and cooperation. Its elegantly curved Nordic pine beams and engaging HPL play panels make it both visually appealing and highly functional in outdoor play spaces. As part of a Nordic design playground approach, Anni combines natural materials with purposeful form, encouraging calm, sensory-rich play. Designed to support fine motor development and sensory engagement, Anni encourages collaborative play in a calm, tactile environment. Its size and layout with fall height of 740 mm suit small group play while offering clear visibility for supervision. Anni performs reliably in all seasons—an ideal choice for themed playgrounds or nature-inspired layouts where movement, imagination and aesthetics come together.

User age	1+
Number of users	10
Product length, mm	2490
Product width, mm	2220
Product height, mm	2210
Impact area, m ²	8.2
Falling space, m ²	20.8
Height required, mm	2660
Max. free fall height, mm	740
Safety info	EN 1176-1:2017
Installation time (for 1), H	5
