

# URHO PLAY TUNNEL

Urho Play Tunnel invites children (aged 1+) into active movement and creative exploration with its extended crawl-through design. Whether hiding, crawling or weaving through in imaginative sequences, the tunnel encourages gross motor development and spatial awareness in a fun, low-threshold format. Constructed with robust HPL ends and a durable plastic tunnel, Urho is built for long-lasting outdoor use and easy maintenance with fall height of 1030 mm. Its rounded shape and generous length make it ideal for inclusive playgrounds where movement and play go hand in hand. Perfect for parks, schools or themed play environments, Urho adds depth, variety and playful challenge to any outdoor activity solution.
