Astrid Play House invites young children (aged 1+) into a playful space where imagination takes the lead. With a small balcony and interactive panels, it encourages roleplay, storytelling and social interaction, supporting emotional and cognitive development through shared experiences. The enclosed structure offers a cosy sense of shelter while remaining open and accessible from all sides. Built from durable materials including powder-coated steel and HPL panels, Astrid is designed to handle active daily use in public parks, elementary schools or daycare playgrounds with fall height of 980 mm. Its thoughtful details and compact footprint make it a delightful addition to any inclusive outdoor play environment focused on creativity, connection and early learning.

User age	1+
Number of users	5
Product length, mm	2210
Product width, mm	1820
Product height, mm	3510
Impact area, m ²	14
Falling space, m ²	17
Height required, mm	4010
Max. free fall height, mm	980
Safety info	EN 1176-1:2017
