

ÄRTAN BALANCING STEPS

Ärtan Balancing Steps bring movement, balance and challenge to ground-level play. Children aged 3 or more can step, hop, or crawl along the fun path. They build coordination, motor skills, and confidence with every move. Made from PEFC-certified Nordic pine and topped with HPL plates for added traction, Ärtan supports safe and inclusive play in all weather conditions. Its low profile and fall height of just 550 mm make it especially suitable for early learners exploring movement at their own pace. Ärtan fits well in outdoor places like schoolyards, parks, and early childhood centres. It encourages active play for everyone. A versatile addition to any outdoor activity area focused on wellbeing, learning and sustainable materials.

User age	3+
Number of users	3
