

Ann Balancing Step

Prime , F24809M

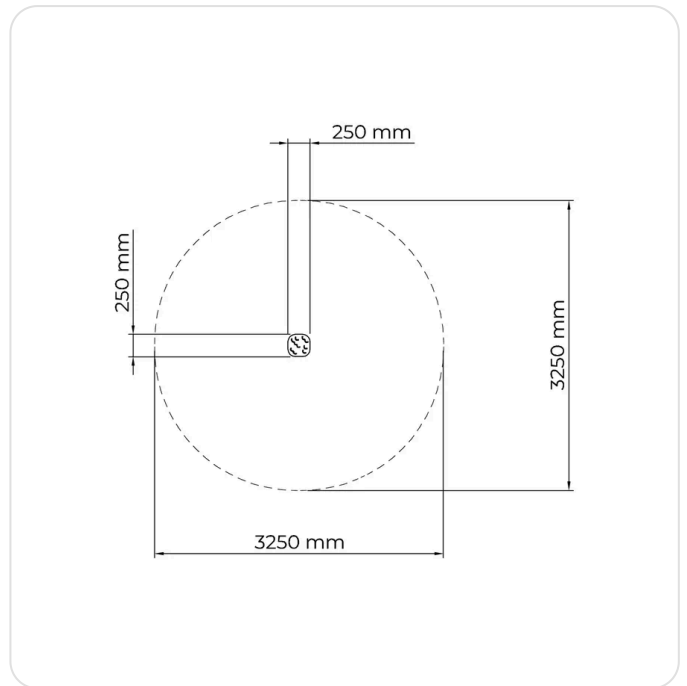

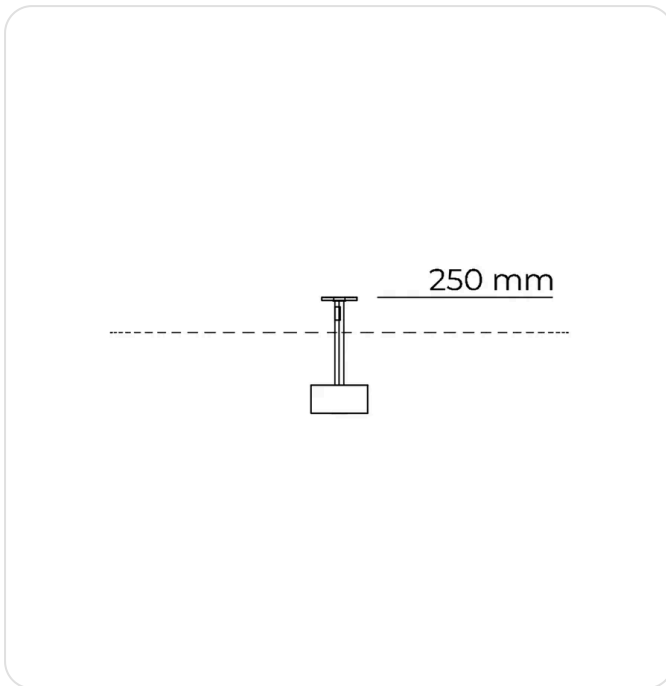

Ann Balancing Step brings movement, balance and challenge to ground-level play. Children aged 3 or more can step, hop, or crawl along the fun path. Building coordination, motor skills, and confidence with every move. The low profile and fall height make it especially suitable for early learners exploring movement at their own pace. Balancing steps fits well in outdoor places like schoolyards, parks, and early childhood centres, especially when combined together with other low level balancing solutions.

Basic information

User Age	3+
Number of Users	1
Safety Standard	EN 1176-1:2017

Technical information

Amount of Concrete, m ³	0.03	Height, mm	250
Largest Part, mm	800	Max Free Fall Height, PLAY, mm	250
