Rope tunnel for pirate ships with a floor height of 140 cm

The Pirates series includes a rope tunnel for your pirate ship. The rope tunnel is an extra fun way of accessing the pirate ship's top aft deck. The rope tunnel requires children to use cross-body movements to move through it in either direction. This stimulates neural activity between both sides of the brain, which helps them to learn to read and write.

Which pirate ships take the rope tunnel?

The rope tunnel is available in different heights. This rope tunnel fits the following pirate ships: **LP310 Elisabeth**, **LP311 Maria**, **LP312 Juliane**, **LP313 Victoria** and **LP315 Absalon**. If you would like a rope tunnel with more play activities, take a look at **LP170 Cathrine**.

Why buy LEDON Pirates?

- Developed in collaboration with children.
- Can be infinitely expanded with ships, treasure islands and suspension bridges.
- Ships in many different price ranges.
- Ships can be combined with play systems from LEDON's other theme worlds.
- Unique playground in modular set-up.
