Rope tunnel for pirate ships with a floor height of 190 cm

The Pirates series includes a rope tunnel for your pirate ship. The rope tunnel is an extra fun way of accessing the pirate ship's top aft deck, and is accessed via a rope ladder. The rope tunnel requires children to use cross-body movements to move through it in either direction. This stimulates neural activity between both sides of the brain, which helps them to learn to read and write.

Which pirate ships take the rope tunnel?

The rope tunnel is available in different heights. This rope tunnel fits the following pirate ships: **LP411 Olympia**, **LP413 Atlantic** and **LP415 Alexandrina**. If you like the idea of a rope tunnel with more play activities, take a look at **LP171 Sofia** or **LP180 Helena**, which have an additional play environment.
