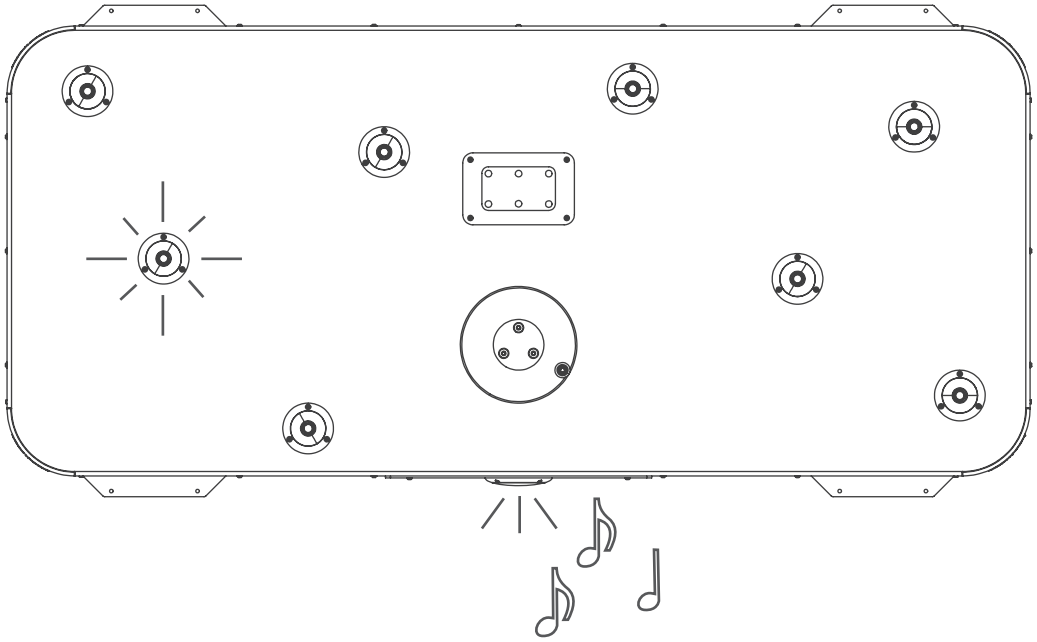
The 4 Games

1. Speedtest
Two specific lights turn on randomly, try to run them off as fast as possible. The fastser you are, the higher your score is!

2. Lights Out
All of the lights turn on at the same time, it's up to you to turn them off as fast as possible.



3. Reaction
One light turns on randomly on the GameWall. Pay attention to which light this is, try to turn off as many lights as possible.

4. Follow the Light
The lights turn on one after another. You have a few seconds to hit the lights. The faster you hit the light, the more points you get. If you're too slow, the light will turn off and you get 0 points!

Receive Timelock
1. Receive a USB device. Playnetic has set the correct start- and endtime for you.

Install and Manage a Timelock
1. Remove the bolts with the supplied hex key.
2. Remove the service hatch.
3. Important! The timelock must be installed at 12 o'clock local time. If the installation is being done too late or too early, the timelock will not work properly.
4. Put the USB stick into the computer.
5. Generate energy. Wait until the update is completed. Remove the USB stick after completion.
6. Make sure that you put the dust cover back over the USB port.
7. Close the service hatch.

Update Your Timelock 2x a Year
For updating your timelock, use the USB device you received from Playnetic with the correct start- and endtime (same USB device for install option). Repeat step 1 till 7 in 'install a timelock' to complete the update.
